

*"I just didn't want to
never see him again"*

A Horse in the House...

You always stood at the back door wanting to come inside. Cookies and carrots wouldn't do, you just wanted to be where we were. You'd toss your head in disgust, and trot back to your pasture. I always said "Someday I'll have you mounted, and then you can come inside and stay." On that cold winter day, when you died in my arms, I remembered that promise! Many thanks to Marianne Eberth for allowing Pistol to come to Texas. Donnie and Jaclynn Gauthorn for the great privilege in buying this wonderful animal. Dr. Marlin Baker and Dr. Harold Putnam for all your excellent veterinary care; Robert Sutton whose many hours of artistry and skilled craftsmanship did bring you back... to be home with us forever. Pistol, thank you for all your champion foals. You were loved...

*"The Winds of Heaven...blow thru horses ears."
